About me

As a motivated Junior .NET Developer with solid knowledge of software development and database management, I possess a keen understanding of the .NET Core framework and SQL Server. My experience includes developing and maintaining web applications and REST API's, utilizing C# and ASP.NET to create efficient, userfriendly solutions.

I am adept at writing complex SQL queries and optimizing database performance, ensuring data integrity and security. My problemsolving skills and attention to detail enable me to deliver highquality code and support team objectives effectively.

You can view some of the projects I have worked on by visiting my [GitHub profile](#).

Job Experiences

ASP.NET Developer

March 2023 - Until Now

Freelance

- I have a skill set with SQL Server, T-SQL, and the creation of stored procedures, indexes, triggers, functions and views. I am well-versed in managing relationships through primary and foreign keys, ensuring data integrity and optimal performance.
- Developed .NET Web API's using microservices for a better performance and testable applications.
- My expertise extends to developing RESTful APIs using .NET Web API and C#, where I apply Object-Oriented Programming (OOP) principles to create scalable and maintainable applications.
- Additionally, I have a solid understanding of data structures and design patterns, which enhances my ability to write efficient code.
- I am also skilled in implementing asynchronous APIs, allowing for improved application responsiveness and user experience.
- I am familiar with HTML & CSS , and have worked on with .Net Core MVC

Android Developer

November 2021 - November 2023

Freelance

- Developed and maintained multiple Android applications utilizing MVVM architecture, ensuring a clean separation of concerns and enhancing code maintainability.
- Implemented Retrofit and Volley for seamless API integration, optimizing data retrieval and network performance.
- Leveraged Kotlin and Java to create user-friendly interfaces using both XML layouts and Jetpack Compose, enhancing user experience.
- Utilized Coroutines and RxJava for efficient asynchronous programming, improving app responsiveness.
- Integrated various Android services, including push notifications and broadcast receivers, to enhance app functionality and user engagement.

Educations

IT

Karaj Ghand University of Applied Sciences

Grade : Bachelor's Degree

September 2024 - Until Now

Business Management

Karaj Ghand University of Applied Sciences

Grade : Associate's Degree

October 2021 - May 2024

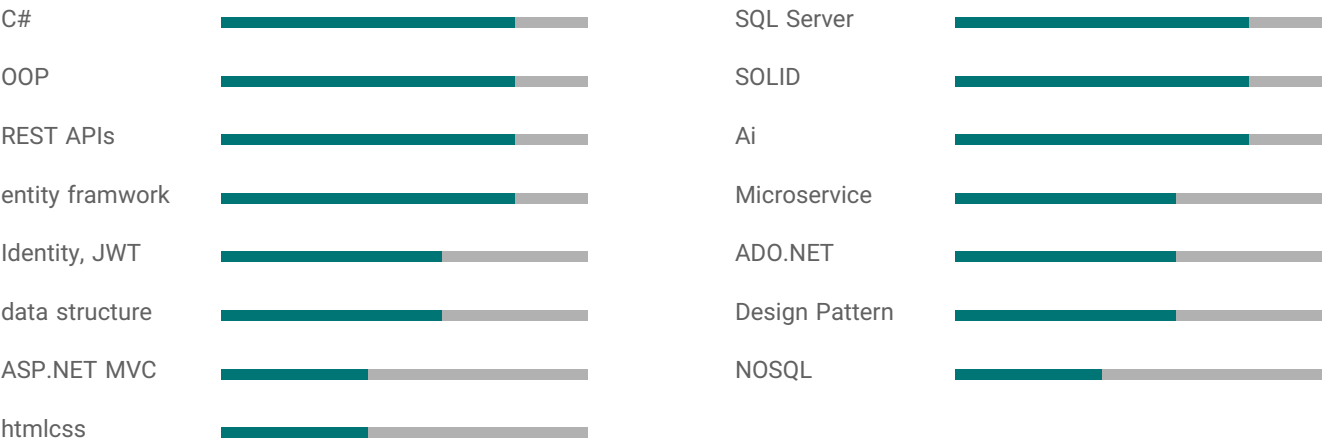

Empirical Science

Shahid Soltani 3 (Sampad)

Grade : Diploma

October 2016 - June 2019
